

Recommended Laptop Configuration

Intel Core 2 Duo or AMD multi-core chip (2.20 GHz or higher)
Windows 7 Professional 32 or 64 bit
At least 4 GB of Memory
At least 80 GB hard drive (7200 RPM preferred)
CD-RW/DVD optical drive or better
802.11 a/b/g/h wireless LAN
3 year warranty with 3 year total coverage (accidental damage protection)
Carrying Case

Iona College has chosen as its standard software Microsoft Office 2010 Professional as its application suite. This software will be used in classrooms and is strongly recommended for optimal results and communication. You can order Microsoft Office 2010 online for \$79.95 (Windows) or \$99.95 (Mac) by going to <http://www.microsoft.com/student/office/en-us/default.aspx> You will need to wait until after you receive your email address at Orientation to order from this site.

Iona College will install Microsoft Security Essentials on all computers that connect to the College's network. Therefore, you do not need to purchase separate virus protection software. The student will uninstall all other antivirus programs.

Apple Computers

If you are interested in purchasing a MacBook Pro, please order through the Education Store at Apple: <http://www.iona.edu/infotech/appleLaptop.cfm>

E-mail [Adrianna DiLello](mailto:Adrianna.DiLello@iona.edu) to receive password information.

Orientation Materials

Departments have placed important information for students on the Student Retention website under Orientation Materials. They will need their network id and password to access this site. This id and password will be given out at Orientation during the IT Training Session. The website is <http://www.iona.edu/studentlife/studentretention/orientation/index.cfm>
