Dear Colleagues,

Last semester I shared information with you regarding Lighthouse Services, the 24 hour, confidential, Whistleblower service that is provided to all of our employees. As recommended by the Integrity in Reporting Committee, and announced last semester, I will be sending periodic reminders and announcements to the community about this important resource.

Attached you will find two documents that I encourage you to review. The first is a Whistleblower Hotline FAQ document. Here you will find answers to several questions you may have about this confidential, 24-hour service. In addition to the FAQ’s, you will find a flyer detailing how to file a report and what types of issues should be reported.

For additional information on this service, please visit the Faculty & Staff, Human Resources or Ombudsperson sections of our webpage or contact the Director of Human Resources.

We have come a long way in addressing past struggles and data issues. As part of its work, the Integrity in Reporting Committee made recommendations to the Faculty Senate and the Staff and Administrative Council to update language in our handbooks to reflect the principle of integrity, particularly as it relates to data reporting and the misappropriation of funds. The Committee remains actively engaged in reviewing college-wide data and ensuring reliability in our reporting. I encourage you to review the steps we have taken to date and reach out to a member of the Committee with any questions.

I thank you for your commitment to upholding ethical and moral workplace practices and personally demonstrating the values of responsibility and integrity for our students.

Sincerely,

Joseph E. Nyre, Ph.D.
President
